## WHAT WE DO

VBAND Nutritionals offers a great variety of food supplements with a private labeling option. This means that you can have your own protein, capsules and tablets packaged with your design just in a few simple steps.

## WHO WE ARE

VBAND Nutritionals has the great advantage of working with well educated professionals and experts, most of them with pharmaceutical background. This not only guarantees the high quality of our products, but also ensures the continuous monitoring and controlling of the production procedures. Furthermore, our team has more than 10 years of experience in the field of food supplements. During this time we have worked very hard to test and find the best ingredients and solutions for our clients across the globe.

# START YOUR OWN BRAND TODAY

## THE SERVICE

VBAND Nutritionals intends to meet its Clients demands therefore offers a unique service of introducing a new product to the market under the Client's Brand. This service consist of choosing the right products, providing marketing materials and delivering the products to the clients under their brand.

## WHAT WE OFFER

We offer a wide range of high quality products. We are strong in powders, tablets and softgels. With your own logo you can order sports nutrition supplements such as proteins, amino acids, gainers, pre-workouts, creatines and many more. Besides we are able to produce many supplements in liquid form - BCAA, Magnesium, L-carnitines and etc. With us you can also add capsules (00# or 000# size) to your product line.

## LOOKING FOR SOMETHING SPECIAL !?

We are open to new projects to meet the customer's requirements. With us you can create every product with your unique flavor and formulation! Send us your requirements and we will prepare the perfect product just for you with your brand on it! Try our services and we will take care of all details.

# PROTEIN SUPPLEMENTS

Proteins are the main constituents of all cells in the human body. Increase of frequency and intensity of training has the main influence on raised requirement for protein in everyday diet. Additional proteins provided by high quality supplements acquired from the best source, ensure support for muscle regeneration which in turn results in pure muscle growth and formation. VBAND Nutritionals protein supplements guarantee first - class protein support while the wide range of products assures diversity. We offer Whey Protein Concentrate, Whey Protein Isolate, Beef Protein and Vegetable protein such as hemp, pea and rice.

Cappuccino

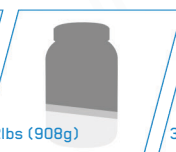

## CARBOHYDRATE SUPPLEMENTS

High-calorie carbohydrate and protein complex with extra amino acids. Product rich in simple and complex carbohydrates, allowing easy intake of the necessary extra calories, to supplement a normal and varied diet. Protein contributes to the maintenance of normal bones and muscle mass, as well as to muscle mass growth. The amino acid profile has been further improved by adding an Amino Tripeptides, BCAA and L-Glutamine formula, as well as taurine amino acid, to the high content of essential and conditionally essential amino acids. The medium-chain triglyceride (MCT) content of the product provides a great source of energy for your active days, without the risk of accumulation.

## AVAILABLE SIZES

# CREATINE SUPPLEMENTS

Creatine is a substance supporting muscle strength and is strongly recommended during high intensity trainings. This substance rapidly supplies energy to the muscles, while also increasing endurance during short and intense training sessions, enabling the highest level of efficiency in regards to muscle regeneration. VBAND Nutritionals use only high quality substances designed to optimize muscle development and performance.

Optional: You can choose between Creatine Monohydrate, Creatine HCL or Tri-Creatine Malate. Also we offer exclusive creatine matrix on your choice.

 Creapure®

Capsugel®

## AVAILABLE SIZES

# PRE-WORKOUT SUPPLEMENTS

Pre-Workout supplements are designed to support increased energy, focus and endurance during exercises. The supply building block substances, stimulators and support fat burning. Most importantly they provide the energy boost required especially during weight trainings. Thanks to VBAND Nutritionals Pre-Workout supplements, each training will be more effective.

Optional: You can choose from complex Pre-Workout formula with Creatine, BCAA's and Protein or More simple formulation with only active ingredients.

## AVAILABLE FLAVORS

## AVAILABLE SIZES

# BCAA'S SUPPLEMENTS

Branched-chain amino acids (BCAAs) are regarded protein derivatives. Protein contributes to the maintenance of muscle mass, as well as to muscle mass growth. BCAAs account for over 35% of all essential amino acids of muscle proteins. By replenishing the BCAA essential amino acid source every three hours or taking it before or during active physical workout this powder provides excellent support for your muscles. VBAND Nutritionals offers an exclusive Beef Amino Acids in capsule form.

Optional: BCAA 2:1:1, BCAA 4:1:1, BCAA 8:1:1, BCAA 8:1:1 with exclusive blend (L-Glutamine, Taurine, Citrulline Malate, pH Buffer and Vitamin B6)

0.44lbs (200g)

0.66lbs (300g)

1.10lbs (500g)

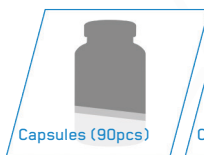

# T-BOOSTER SUPPLEMENTS

Testosterone is one of the strongest anabolic and androgenic hormones in the human body. The basic role of testosterone is to intensify the protein synthesis processes and also to increase bones density and fat free muscle growth. Testosterone is a hormone which gives energy, stamina and endurance to the muscles. Thanks to VBAND Nutritionals testosterone boosters formulation will be more intense and muscles more resistant.

Capsules (90pcs)

Capsules (180pcs)

Tablets (100pcs)

Tablets (200pcs)

# FAT BURN SUPPLEMENTS

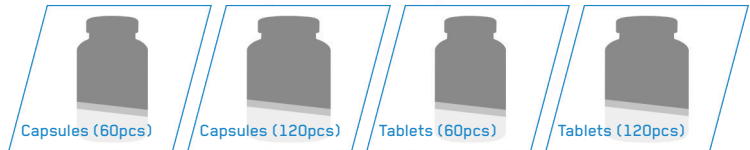

Consuming a calorie surplus leads to the redundant fat accumulation. Many substances offered by VBAND Nutritionals support the natural process of fat burning which helps reduce weight. These top quality products contribute to the modeling of a silhouette and support reducing fat tissue to minimum levels.

**Optional:** Our supplement experts will make for you the perfect weight loss formula or you can choose one from our premade products.

Capsugel®

## AVAILABLE SIZES

# PEANUT BUTTER

Peanut Butter is an excellent, natural source of healthy carbohydrates and fats obtained 100% from peanuts. It is a perfect supplement for active people, as it provides proteins and calories necessary in all high-calorie diets. Our Peanut Butter is high in fiber and unsaturated fat, mainly mono-unsaturated fatty acids. Mono and polyunsaturated fatty acids are very important because, in contrast to saturated fats, they help to maintain the proper level of cholesterol in the blood. Additionally protein from peanuts, is an essential nutrient which contributes to the growth and maintenance of the muscle tissue.

## AVAILABLE FLAVORS

## AVAILABLE SIZES

# LIQUID L-CARNITINES

The purpose of the L-carnitine is to transports the fatty acids through the cell membrane of the muscle cells. Delivery of the fatty acids to the mitochondria located inside the cell to be burned as energy is the reason this product is highly advised when the athlete seeks definition and shredding excess fat. L-carnitine is most effective in liquid form as compared to tablets and capsules because it guarantees fast and full absorption of the active ingredient.

Optional: We offer a pre-made formulation with L-Carnitine Tartrate 1500mg, 3000mg, Acetyl L-Carnitine. Additional Add-on Green tea, Guarana, Chromium, Vitamins B etc.

## AVAILABLE FLAVORS AVAILABLE SIZES

Zeaxanthine 10% powder  
Zeaxanthine 25% powder  
Zeaxanthine 5% powder  
Zinc chelate 20%  
Zinc citrate trihydrate  
Zinc gluconate  
Zinc L-Methionate 20%  
Zinc orotate  
Zinc oxide  
Zinc picolinate  
Zinc pidolate  
Zinc sulfate (1h2o)  
Zinc sulfate (7h2o)

# CONTRACT MANUFACTURING

## OFFERED BY VBAND NUTRITIONALS

When you decide to outsource your manufacturing to another company, you need someone who has extensive experience in handling chemicals and the equipment to turn your plans into reality. With its substantial experience in the manufacture and delivery of bespoke substances, VBAND Nutritionals gives you full control over the development of your product from day one. In addition to being private suppliers of chemicals and raw materials, our expert team is also available to help and advise you on the costs and legal obligations involved in the process, as well as provide up-to-date reports on the progress of your product. This gives you the time to focus on other aspects of your business, putting you in the best position to grow and succeed.

## OUR CAPACITIES

Powder processing: 15mT per day  
Capsulation: 270 million capsules per year  
Tableting: 1 billion tablets per year  
Liquids: 16 000 units per day

## WHY CHOOSE US?

- Unlimited and cost effective customization
- Plastic packaging of custom sizes and shapes
- Logo branding of every aspect of the packaging (Jars, closures, liners, even scoop measures)
- Custom flavor formulations with unlimited range
